Dr. Joshua Lederberg, President
President's Office
Rockefeller University
1230 New York Ave.
New York, N.Y. 10021

Dear Dr. Lederberg,

After several years of being out of school, I have decided to reapply to medical school. I am enclosing a copy of my AMCAS form, which will give you some of the reasons for my decision. It also notes some courses that I'll be taking at San Francisco State which I hope to use to offset my rather dismal performance the last 2 quarters that I attended Stanford.

I am writing this letter to ask your permission to use the recommendation which you wrote for me several years ago. The Academic Information Center still has it in its closed file. If you want to add a note updating it, I hope the enclosed information will help you. If not, I'll call in a week or so to answer any questions you may have. I know you're probably busier now than you ever were at the Genetics Department, so whenever you have a chance to think about it would be fine. ✓

I saw Seth Foldy recently and he seems to have enjoyed the first 2 years of medical school at Case Western. He's working for a month at Stanford in the Health Science Administration Department.

Since I never had a chance to congratulate you on your appointment as President at Rockefeller, let me take this opportunity to do so. I'm sure the medical school was sorry to lose you.

Sincerely,

Tim Cullinane
